PROLOGUE

'Learning is like rowing upstream, not to advance is to drop back.'

It's our proud privilege to be with you again, while we present this issue of our Year Book 2012-13. The school has been progressing by leaps and bounds and to see ourselves grow along, is matter of sheer joy. Unless there is continual growth and progress, words such as improvement, achievement and success have no meaning.

As the above quote says, he who doesn't move forward goes backward. Keeping this in mind, our school aims at growth at all levels - academic, curricular and extra-curricular activities. While targeting at academic excellence, we also encourage innovation in every other aspect of learning. As Margaret Mead said, "Children must be taught how to think, not what to think." We are sure that this edition of our Year Book will bear a testimony to this.

Growth, of course, means change and change involves risks stepping from known to the unknown. This paves the way for new ideas, irrespective of the risks involved in implementing them; a mind once stretched by a new idea never regains its original dimensions. And that is GROWTH. Even with respect to the publishing of our Year Books, we are sure the readers have been experiencing gradual but steady growth in terms of quality of the articles, layout, photographs etc.

With this kind of progress, there is no doubt that we will be able to construct a better replica of ourselves and thus enable the future generations to move slowly, but surely, forward, towards the ultimate goal of existence – unparalleled excellence.

- Editorial Board

The Director speaks...

At the outset, let me quote the Mercedes Benz motto. It says 'Dos Beste oder Nichtz', meaning 'The Best or Nothing'.

As the Director of New Middle East International School....

It is a matter of 'amour propre' to be a part of this top-notch institution that believes in the above-said motto and aims at the Best. The school has been growing from strength to strength and is a cynosure of all eyes. The offspring of NMEIS, the Modern MEIS established in 2012 has been blossoming well, to the expectation of the parents, teachers and the Management.

Like any organization, let us consider the SWOT analysis – the Strengths, Weaknesses, Opportunities and Threats.

Our Strengths lie in our will and commitment to excel, the team of teachers with the spirit of service and the unstinted support of the parents. Our inability to meet the growing demand may possibly be considered our Weakness. Opportunities to be the 'Numero Uno' among the other schools in Riyadh are plenty because the quality determines the quantity and we never fail to grab them by the tuft. We do have our share of Threats – may be in terms of changing weather conditions, like the unprecedented rains or the recent Government policies. I am sure, with the Grace of the Almighty, we will surmount the problems and forge ahead.

I wish NMEIS 'all the best' to continue with its mission of providing quality education and help me achieve my vision of its becoming the 'Best School in the Gulf', if not in the world.

Ms. Farah Al Mutib

Director

From the Principal's Pen...

' Life is full of beauty. Notice it. Notice the bumble bee, the small child and the smiling faces. Smell the rain and feel the wind. Live your life to the fullest potential and fight for your dreams'

'Live your life to the fullest and fight for your dreams'... I do agree with Ashley Smith.
We have to fight for our dreams to realize them. I believe dreams are the roadways to our goal... Dreams reflect the strength of our passion, determination and effort.

Paradigm Shift in Education:

New Middle East International School is proud to report that the school, over a period of time, has embraced a paradigm shift in education. This change is aimed at improving the quality of education and preparing the pupils for the future which is very complex and challenging. We have moved away from the traditional instruction method. Here the teacher is a coach on the side rather than a sage on the stage. Learning is comprehensive and continuous. It never stops at any point of time. The components of core curriculum are related to one another. There is connectivity and no subject is studied in isolation.

A student is not what he is simply seen in the classroom. He has a personality, has strengths and weaknesses and other behavioural traits to be understood, recognized and addressed. Education means much more and the teacher has a bigger role to play in this context. We observe them, work with them, guide them and help them overcome their deficiencies. Learning is not confined to the classroom. It is everywhere and in everything they do. We teach them life skills and many little things they need to get along and succeed in life. The students observe and explore the world and this quest for new knowledge vitalizes the process of learning. NMEIS has seriously embarked on this platform, equipping the teaching faculty with competence, skills and knowledge. This paradigm shift enables the teachers to transform the lives of our students, which would help them in all walks of their lives.

I am very proud that the school has made tremendous progress in education, in literacy development and life skill development. Our teachers, proud to be recognized as the best assets of the school, are the stakeholders of this development. They see light in their lives which leads them amid the fur of bloom and prepares them to boldly encounter the formidable challenges of future. I am further contented that our children have truly demonstrated, on the ground, a good level of confidence which stands them in good stead.

"I have a dream" said Martin Luther King once. He did strive to fulfil his dreams. I am often lured by the words of great people. I am inspired by their words to a great extent...and I do have a dream... a dream to sustain a smile on the students of this institution...a dream to produce more and more fruitful citizens...a dream to heighten the glory of education....and I feel truly blessed being able to move towards realizing my dreams.

I am placing this report before you with utmost satisfaction resulting from sincere and dedicated work undertaken with you collaboratively.

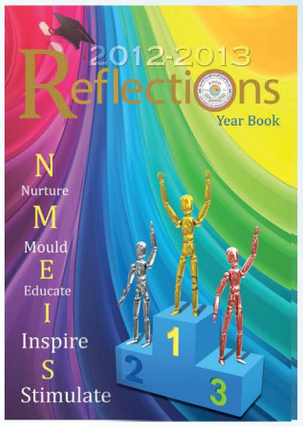
What the Cover Page means...



A picture speaks a thousand words. So it is with this cover page too. It speaks volumes not only about the book but also about the institution it represents – the one and only one New M.E.IS.!! More than words it touches the hearts! The flowing spectrum of soothing colours means a lot. Firstly, it represents the wide range of back grounds the students of our school come from, which finally merge into a single colour – white, that symbolizes Peace, Puriity and Unity of Purpose. All of them have just one common goal – of becoming winners all the way. Secondly, the varied colours seen beneath 'Reflections' signify that once they graduate out of New M.E.I.S., they may choose different professions for their career growth but all of them show their mettle and prove that they are products of this school, both in terms of character and mental acumen. The cap and the scroll on the letter 'R' represent graduation. Lastly, the multicolour background also suggests that at New M.E.I.S. we lay emphasis on multifarious activities – both academic and extracurricular, that ensures the emergence of a wholesome personality of the students. All in all New M.E.I.S. is a personification of 'Unity in Diversity'.

The Cover page for 2012-13 issue of 'Reflections' was designed by **Nabeel Ahmad - 10 K**

The Three Finalist in the Magazine Cover Making Competition 2012 - 2013

CBSE XXII Cluster Meet 2012-13, KSA

held at
IIS - Dammam on 2nd & 3rd Oct 2012.

Welcome to NURSERY

This is my hand, so tiny and small
For you to place upon the wall
For you can watch as years go by
How we have grown, my hand and I

MISTAKES FOUND IN THIS MAGAZINE

Found mistakes in this volume of our Year Book?
Congratulations!
They have been left there just for you!
You have lived up to our expectations
And proved to be a WONDERFUL READER!
Keep up your good work!

NMEIS

Kindergarten

Play, Learn and Grow... Together!

In our Classrooms...
We apologize
We forgive
We respect each other
We keep our promises
We never give up
We encourage one another
We laugh often
We belong...
We are a family

In Kindergarten children learn to play and play to learn. They enjoy opportunities to take initiative, make friends, experience a sense of belonging, expand language, increase logical thinking,and develop social awareness.

The Kindergarten staff is dedicated to make the child's experience outside their home a positive and a happy one.
